

Information for Refugees from Ukraine Who Need Dental Care

If you have fled from Ukraine and need to see a dentist, this is what applies to you

- Until the year in which you turn 24, we offer dental care to the same extent as for other children and young people. If you are elderly, you are entitled to emergency dental care.
- Emergency dental care includes help with oral infections, toothaches, and major dental damage. The dentist will decide if your needs are urgent.
- The treatment of acute symptoms means addressing the cause of the symptoms. Other dental care needs are not included.
- Sometimes, more than one visit is required for us to complete treatment.
- A visit to the dentist costs SEK 50. It's free for children and young people.

How to get dental treatment

- Book your appointment in advance by contacting one of our clinics (telephone numbers are available on our website).
- Ask the staff where you live to help you book. Ask them to state what language you speak so we can book an interpreter.
- Remember to take your residence permit card with you if you are covered by the EU's Temporary Protection Directive.

Visit our website for contact details for your nearest clinic.

Welcome!
